

**MORE GOOD NEWS
TIME TO CURL AGAIN**

The new equipment has been installed, the ice is white, the houses and lines are in place and the final flooding and scraping is underway. Monday November 7 is the date for the projected start of the day and evening curling programs. The women's curling clinic and the junior program will begin on November 5 and 6 respectively.

The convenors have been distributing the start-up information. You may also check the website (hudsonlegion.com) to confirm the time and date of your first game. With the exception of the Hardy Rocks, the schedule to be followed for the first week of curling is that which was originally set for the week of November 7. The convenors of each program will then be examining their schedules and players will be advised of any changes which will be made.

If you need further information please check with your skip or the convenor of your program.
